

Every one is plugging in !

- * Triple Thermal Processing
- * Ability to produce hot water for your home / Business
- * Built to Last in an Ever Changing Environment
- * Energy Efficient
- * State of the Art
- * Intelligent Technology Driven
- * Environmentally & User Friendly
- * Exceptional quality
- * A Price Every One Can Afford
- * Green Technology
- * Low Maintenance
- * Thermal Driven
- * Operates in Any Temperatures
- * Exceptionally Constructed
- * Saves Energy 24 Hours Per Day
- * Longer Life Expectancy
- * R410A & Heat Standard
- * 100% USA Technology

Outer solar air conditioner shell

The shell designed with high grade galvanized cold rolled steel. A pure polyester technique coating applied to protect from rust with a color that will not fade in time. Assembled with high grade steel bolts for durability and longevity. Simple operation, durability and weather resistance of the air conditioner is guaranteed.

Environmentally Friendly - Advanced Technology
